Volunteers and Trainees

Bethlehem Arab Society for Rehabilitation has been growing and evolving for 50 years. The hard work of hundreds of volunteers, have kept it vibrant and dynamic for five decades. In a salute to the backbone of organized philanthropy, the VOLUNTEER, Bethlehem Arab Society for Rehabilitation takes great pleasure in recognizing the hard-working individuals who have contributed their time, talents, and energies to benefit Palestinian People. BASR has volunteers from all walks of life, from all levels of employment, and from all
Volunteers and Trainees

parts of the world. Their common bond is to improve the quality of life of all people including those with disability and other vulnerable groups. Volunteers do much more than just working at BASR’s different Departments and community programs, they sincerely share their expertise, culture, genuine solidarity and much more. They are our ambassadors to the outside world. Their contributions sustain the organization and promote its work. In return, BASR provides them with active social interaction with their peers, the opportunity to make new friends, renew and develop their skills or try something different. The strength of BASR is truly in its volunteers.

Their passion and commitment enable BASR to fulfill its mission “To improve the quality of life of all people including those with disability”.

Thanks to all the volunteers for being the ones to bring about some change.

From all of the Staff and Board of Directors at Bethlehem Arab Society for Rehabilitation,

we would like to extend a large thank you to our volunteers.
Shukran, Thank You, Merci, Grazie, Danke, Tack, dank u, Gracias
