As part of the program “Empowerment of Palestinian People with Visual Impairment and Promoting their Inclusion in Society” supported by the Finish Federation of the Visually Impaired (FFVI), 17 young persons with visual impairment from different districts across the West Bank participated in a one day training on ‘Communication Skills” organized at BASR. After a general introduction about communication, the training covered topics of communication conditions, obstacles and skills. This training is a part of six training sessions planned to be conducted in 2012 that aim at building the capacities of persons with visual impairment to empower them to advocate and claim their rights in the community.
