Our mission is to improve the quality of life of our clients by preparing them to participate in the community. To achieve this, the Center fosters in its students a sense of equality with their peers along with pride in the products they make and skills they master. The result is an overall growth of personal confidence in young adults who previously suffered isolation and rejection.

The Al Basma (“Smile”) Center exists to empower disabled youth in the Bethlehem area and refugee camps, building bridges of peace between the handicapped and non-handicapped in our community.
